

Phase 2 Cheat Sheet

Purpose: The child will learn to activate the iPad from a distance and to walk to the communication partner.

Setting: An open room with multiple surfaces on which to place the iPad.

1. Conduct a preference assessment. Repeat this every 5 trials.

2. **Trainer 2:** Stand with the child at one end of the room. Place iPad in front of the child.

3. **Trainer 1:** Stand halfway across the room and entice with the preferred item.

4. **Trainer 2:** Assist the child to travel with the iPad to Trainer 1 if necessary. Help activate the graphic symbol. Fade out prompting in following trials.

Mastery: The child independently takes the iPad to Trainer 1 and activates it two times in a row.

5. **Trainer 1:** Increase distance between you and the child to the full size of the room.

6. **Trainer 2:** Assist child to take the iPad to Trainer 1. Fade out prompting.

Mastery: Child independently activates iPad with Trainer 1 two times in a row.

7. **Trainer 2:** Increase the distance between the child and the iPad.

8. **Trainer 1:** Stand next to the child. The iPad should be across the room.

9. **Trainer 2:** Assist the child to take the iPad to Trainer 1. Fade out prompting.

Mastery: Child independently activates iPad with Trainer 1 two times in a row.

10. **Trainer 1:** Stand in one corner of the room.

11. **Trainer 2:** Place the iPad in another corner of the room. Stand with the child in another spot across the room from both the iPad and Trainer 1. For the next trials, put the iPad at different locations within the room.

Mastery: Child independently activates iPad with Trainer 1 two times in a row.

12. **Trainer 1:** Pretend to be “unavailable” (e.g. turn your back towards the child). The child needs to make a stronger effort to get your attention.

13. Trainers 1 and 2 switch roles. Have child communicate with different partners.

Mastery: Child independently activates iPad at any distance two times in a row.
